Reasons for allowance

1. This communication is in response to applicant's 12/20/2005 amendment in the application of Schneider et al. for a "Multiservice use of network connection capability under user-to-network interface signaling" filed 08/07/2000. This application is a Request for Continued Examination (RCE) under 37 C.F.R. 1.114 filed on August 09, 2005. The proposed amendments to the claims, and response have been entered and made of record. Claims 5, 39-50, 52-55 and 57-60 have been canceled per Applicant's request, and claims 51, 56 have been amended. The claims have been amended to include the allowable subject matter set forth in the office action mailed on 10/21/2005.

2. Claims 1-4, 6-38, 51, 56 are allowable as evident by applicant's amendment (Claims are renumbered as 1-39 respectively).

3. The following is an examiner's statement of reasons for allowance: The instant application is deemed to be directed to a nonobvious improvement over the invention patented in closest prior arts of record. The improvement comprises the step wherein a service controller configured to provide service policy and logic associated with the plurality of services in response to service requests initiated by and users; and a proxy device that correlates the service requests with respective services of the plurality of services in response to a network connection request to enable the associated service policies and logic provided by the service controller, and initiates connections to the network via the switch controller based on at least the associated
